

GLOBAL DREAMER'S CLUB

**Only a Dreamer can change
the World and Make History**

Version : 01.01

INTRODUCTION

Global Dreamer's Club is a group of dreamer's who wish to change there world with positive attitude and regular efforts. This is a decentralized based on smart contact for global system.

We giving you to build your global business and open global account opening opportunity. This decentralized platform based on smart contract that connect people from all over the world and opens the limitless possibilities of the new economic financial system.

WHAT IS CRYPTO CURRENCY ?

A crypto currency is a digital or virtual currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double spend. Many crypto currencies are decentralized networks based on block chain technology a distributed ledger enforced by a disparate network of computers. A defining feature of crypto currencies is that they are generally not issued by any central authority, rendering them theoretically immune to government interference or manipulation.

DECENTRALIZATION?

What does "decentralize" mean ? What are the advantages and what are the benefits ? Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A smart contract is an automatic execution algorithm. It exists within the Tron block chain , one of the TOP cryptographic currencies.

SMART CONTRACT?

Smart contracts, like crypto currencies, are decentralized. They work strictly according to the underlying program, without the possibility of subsequently Changing the defined execution. The code that contains all the logic of the contract expiration is on the block chain and all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking into the smart contract and stopping the project.- The block chain is an immutable record of transactions and information, which is; ° cryptographically protected from any subsequent manipulation using thousands ofeo © independent computers worldwide.

CROWDFUNDING

Crowd funding is the use of small amounts of capital from a large number of individuals to finance a new business venture. Crowd funding makes use of the easy accessibility of vast networks of people through social media and crowd funding websites to bring investors and entrepreneurs together, with the potential to increase entrepreneurship by expanding the pool of investors beyond the traditional circle of owners, relatives, and venture capitalists.

TRON BLOCKCHAIN

TRON is a decentralized, open-source block chain-based operating system with smart contract functionality, proof-of-stake principles as its consensus algorithm and a crypto currency native to the system, known as Tronix (TRX).
